New Addition to the Faculty Club Staff

Greetings! My name is Stefanie Chow, and I am a recent graduate of UCSD. This is my first month working as the Catering Office Assistant here at the Faculty Club, and I am enjoying every moment of it! Everyone I have encountered on the job has a unique charm that reinforces why I love event planning & administrative work so much. This strong passion echoes through my involvement in Circle K International, a collegiate community service organization and a branch of Kiwanis International. (On that note, I am excited to join a local Kiwanis Club in the near future!) I am currently taking event planning classes at SDSU in hopes of earning a Meeting & Event Planning certificate and utilizing my Management Science degree from UCSD to pursue a career in either event planning or hospitality management. The Faculty Club has already given me countless opportunities to develop my own administrative and networking abilities, and my biggest current goal is to get to know everyone who enters the Faculty Club. With that said, I hope to meet you soon!

Oceanids—Sounding Board Thursday, March 7, 2013

"Using Sound to Study Marine Mammals"

John A. Hildebrand, Professor of Oceanography,
Adjunct Professor Electrical and Computer Engineer

John Hildebrand is a Professor at Scripps Institution of Oceanography, UCSD and Adjunct Professor in the UCSD Dept. of Electrical and Computer Engineering. He obtained a B. S. in Physics and Electrical Engineering at UCSD, and a Ph.D. in Applied Physics from Stanford University. He has chaired ten graduate Ph.D. thesis committees, and teaches classes on bioacoustics, and experimental laboratory acoustics. Dr. Hildebrand has contributed to more than 100 referred publications, on topics ranging from acoustic wave propagation, to passive acoustic monitoring of marine mammals. His recent research has focused on the use of acoustic techniques for marine mammal population census, and the effects of noise on marine mammals.

Come to Sounding Board and learn about these intelligent animals and hear amazing whale sounds! Sounding Board is a series of seven lectures during the academic year, the first Thursday at **12 noon**, sponsored by UC San Diego Oceanids and the UC San Diego Faculty Club. Oceanids, faculty and friends meet at the UCSD Faculty Club in a specially designated room to eat lunch and listen to fascinating speakers. Lunch is \$13.00 for guests and \$9.00 for Faculty Club members (purchase required). Coffee and iced tea are provided in the meeting room. A parking permit can be obtained at the front desk. You can be sure of a lively discussion! Contact: Judith Vacquier, Ph.D. jvacq@sbcglobal.net
